

TASK-4

Name: Shaik Chandini

Email id: shaik.chandini5566@gmail.com

Task Title: OTT Platform Website Clone.

Task Description: In this project, I will be challenged to recreate the design and functionality of any OTT (Over-The-Top) platform website like Netflix, Amazon Prime, Zee 5, etc. using HTML, CSS, and JavaScript. This task aims to test my skills in front-end development and user interface design.

Project details:

Technologies:

HTML: Structure your app.

CSS: Style your app for an appealing look.

JavaScript: Add dynamic and interactive functionalities.

Steps Taken:

- First I wrote the html code in new file in notepad and saved it as index.html
- In a new file in the notepad I wrote the css code and linked to html page via “href” tag and saved it as style.css.
- I implemented the javascript code in another new file and saved it as script.js.
- I wrote the code for the login.html, tv-shows.html, movies.html, kids.html pages in different files and saved them
- I run the index.html page in google chrome

Disney+ Hotstar OTT Clone

Solutions Implemented:

HTML code:

Index.html

```
<!DOCTYPE html>
